

**NMB-05: Quantitative Neuromuscular Blockade Monitoring**

**NMB-05:** Percentage of cases with documentation of train-of-four count or ratio provided by a quantitative monitor (acceleromyography, electromyography, kinemyography, mechanomyography).

**Measure Start:**  
Patient in Room. If not available, Anesthesia Start.

**Measure End:**  
Patient Out of Room. If not available, Anesthesia End.

MPOG Concept ID	Concept Description
<b>Quantitative Train-of-Four Monitoring Concepts</b>	
3033	Train-of-four objective count (Acceleromyography, electromyography, other)
3485	Train-of-four objective ratio (Acceleromyography, electromyography, other)
3486	Train-of-four twitch value 1 (Acceleromyography)
<b>Non-depolarizing Neuromuscular Blocker Concepts</b>	
10043	Atracurium
10129	Cisatracurium
10344	Pancuronium
10393	Rocuronium
10446	Vecuronium
